DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

1. The primary reasons for allowance for claims 1-4, 6-10 and 23 is that the applicant's claimed invention includes an inkjet head having a piezoelectric unit including a laminate and a plurality of driving electrodes, the laminate including a plurality of piezoelectric layers and a plurality of common electrodes, each common electrode extending substantially over the whole area defined between adjacent piezoelectric layers sandwiching the common electrode, the plurality of piezoelectric layers and the plurality of common electrodes being arranged such that an upper half of the laminate and a lower half of the laminate are substantially mirror symmetric in a lamination direction, and the plurality of driving electrodes being formed on a top face of the laminate at positions corresponding to respective ones of the ink pressure chambers. It is this limitation, expressed in the claimed combination not found, taught, or suggested in the prior art that makes these claims allowable over the prior art.
2. The primary reasons for allowance for claims 11-14 and 16-22 is that the applicant's claimed invention includes a piezoelectric actuator for an inkjet head having a multilayer sheet including a plurality of piezoelectric layers and a plurality of common electrodes, each common electrode extending substantially over the whole area defined between adjacent piezoelectric layers sandwiching the common electrode, the plurality of piezoelectric layers and the plurality of common electrodes being arranged such that

an upper half of the multilayer sheet and a lower half of the multilayer sheet are substantially mirror symmetric in a lamination direction, and a plurality of driving electrodes formed on an outer surface of the multilayer sheet. It is this limitation, expressed in the claimed combination not found, taught, or suggested in the prior art that makes these claims allowable over the prior art.

The examiner makes of record that the previous drawing and claim objections dated 24 February 2005 are withdrawn in view of applicant's remarks.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
